Experience

Web Developer — GREY NY

June 2013-Present

Front-end web developer (HTML, CSS, Sass, JavaScript, jQuery). Built cross-platform mobile websites (responsive and static). Developed websites using Backbone and Underscore. Built desktop apps for OS X and Windows with node-webkit (using Node.js). Built cross-platform mobile apps with Appcelerator Titanium (using the Alloy MVC Framework). Built prototypes for UX testing.

Contract Web Developer/Graphic Designer

2004-July 2013

Full stack web developer (PHP, Ruby, jQuery, Node, REST APIs, MySQL, NoSQL, HTML, CSS, Sass, LESS).

Web Developer, Full Stack — Moxie Media Group

Translated Photoshop comps into pixel perfect websites across a variety of industries. Built Wordpress sites with single page AJAX front ends. Architected and built RESTful Javascript web applications using Angular, Backbone, and Meteor.

Web Developer, Full Stack — EMI Records

Translated Illustrator and Photoshop designs to updates for EMI merchandise stores. Develop and implement site caching strategy on select high traffic sites. Update and troubleshoot artist stores as needed. Wireframe and develop for mobile.

Web Developer, Front End — Mammoth Advertising

Created static sites that used jQuery and JSON to provide a dynamic client-side experience. Modified Tumblr themes to add Instagram, Twitter, and Google maps data.

Web Developer, Full Stack — AAWW.org and Opencitymag.com

Translated Illustrator design to themes for Wordpress Multisite (PHP, Twitter Bootstrap, jQuery). Customized plugins to create desired client functionality.

Web Developer, Full Stack — Seasonalhealth.com

Coded Wordpress theme (PHP, jQuery, HTML5, CSS) and custom plugins for client testimonials and search functionality. Performed data migration from client's previous CMS into Wordpress by way of a series of MySQL queries and imports.

Web Developer, Full Stack — Revivenyc.com

Coded Wordpress theme (PHP, jQuery, HTML5, CSS), integrated e-commerce, and mailing list. Created plugin for the member-facing portion of client's site which allows for the generation of custom content views on the fly.
